

## THE MONEY MARKET.

SUNDAY, July 31—P. M.

The value of the merchandise imported at this port during the week ended yesterday was \$8,289,041, or \$892,011 greater than the values of the preceding week, and only \$372,545 less than the values of the same week in 1880. The exports of merchandise from this port for the week ended Tuesday, July 26, were valued at \$7,463,149, or \$93,309 more than for the preceding week, but of \$1,220,073 less than for the corresponding week of 1880. The imports of specie for the week amounted to \$27,000, making a total since January 1 of \$30,761,188, against \$5,168,873 to date in 1880; the exports of specie for the week were \$24,14,17, making a total since January 1 of \$6,475,911, against \$5,187,059 for the same time in 1880. The following shows the imports and exports, other than of securities, at New-York, since January 1, for 1880 and 1881:

		1880.	1881.	Differences.
Merchandise...	\$296,053,784	\$248,286,405	Dec. 30, 1880.	\$47,769,379
Specie...	5,187,059	6,475,911	Inc.	\$188,852
Total imports...	302,143,627	274,777,004	Dec.	25,077,004

EXPORTS:

		1880.	1881.	Differences.
Merchandise...	\$225,908,592	\$217,575,544	Dec. 12, 33, 048	\$18,333
Specie...	5,187,059	6,475,911	Inc.	\$188,852
Balance against the port...	250,000	250,000	Dec.	10,771,196

Thus, while on the merchandise account the balance against the port on the business since January 1 is only \$28,707,861 against a balance of \$67,047,162 a year ago, including the specie movements, the balance now against the port is \$52,723,138, yet it is \$14,305,833 less than at this date in 1880.

The weekly bank statement that was published Saturday presents no changes that are important in amount or significant in character. As the movements of funds to and from the city during the week are supposed to have been about equal in amounts, the reported loss of \$448,000 specie is a fair "average" representation of the actual gain of \$1,783,000 coin made by the Sub-Treasury and lost by the banks. So it is probable that the statement of specie is made up on a declining average. The loss in deposits is reported at about \$500,000 greater than the loss called for by the other changes, and so reduces the amount of reserve required by the 25 per cent rule that the surplus reserve by the statements is only \$47,975 less than it was a week ago.

The following are the comparative totals of the statements of July 23 and July 30:

		July 23.	July 30.	Changes.
